NRG G	REENBOARD: NRG-CR CAVITY RELEASE INSTALLATION CHECKIST.
	Installation has been completed in accordance with NRG-CR Cavity Release Installation Guide.
	(see www.nrggreenboard.com.au) "Installation Downloads" NRG-CR Cavity Release.
	Both Builder and Installer:
	- are conversant with the NRG-CR Cavity Release detailed sequence of installation.
	- have ready access to all relevant technical information related to NRG-CR Installation.
	NRG Greenboard™ and NRG Eps Batten System, is fixed in Accordance with: (1.) Fastener spacing's (table B,
	page 6). NRG Technical Manual, and (2.) NRG Eps Batten / Cavity Release Table 1.0. @ NRG website.
	Glue both horizontal and vertical. Greenboard™ sheet edges to each adjoining sheet using an approved
	construction glue or expander foam.
	Allow 3mm gap between Greenboard™ edge and openings for bead and sealing procedure (refer table 17.1.16
	page 9) NRG Technical Manual (Version 6, May 2010).
	Expansion Joints are installed where NRG Greenboard™ meets other substrates
	Expansion Joints are installed horizontally maximum of 3 metre spacing and vertically maximum of 8 metre
	spacing (as per detail, DWR09 and DWR10 of NRG Specification Manual, Edition 6.)
I the In	astaller have checked the checklist and have installed the NRG Greenboard™ Wall Cladding in accordance
to NRG	G Greenboard™ Cavity Release Specifications.
